

PARAG PARIKH ARBITRAGE FUND

An open-ended scheme investing in arbitrage opportunities

PARAG PARIKH ARBITRAGE FUND

Arbitrage funds are a type of mutual fund that invests in securities with the aim of profiting from price differences between the 'cash' / 'spot' market and the 'Futures' market.

Better Tax Efficiency

- Unlike Debt Funds, Arbitrage funds are taxed as 'Equity Oriented' funds
- This can be more tax efficient for individuals/firms in higher tax brackets

Low Risk - Fully hedged equity exposure at all times

- The fund does not take a directional exposure to equity

Conservatively managed Debt Allocation

- Investment in Low credit-risk debt instruments

ARBITRAGE FUNDS VS DEBT FUNDS

Arbitrage Funds

Equity Taxation

Arbitrage funds maintain a hedged equity exposure (65%–100%), aiming to keep credit risk at minimal levels

Arbitrage funds returns depend on the underlying interest rate environment (impacting cost of carry) as well as the difference in rates between the cash and futures market.

Debt Funds

Debt Taxation

Debt funds, excluding overnight funds, can be exposed to credit risk

Debt fund returns depend upon prevailing yields and interest rate changes

ASSET ALLOCATION

Instruments	Indicative allocations (% of Net Assets)		Risk Profile
	Minimum	Maximum	High/Medium/Low
Equities & Equity derivatives (Equity Hedged exposure)	65%	100%	Low to Medium
Debt securities & Money Market instruments including margin money deployed in derivatives transactions**	0%	35%	Low to Medium

** Debt securities / instruments are deemed to include securitized debt and investment in securitized debt will not exceed 50% of the debt portion of the scheme allocation.

Note: For detailed asset allocation, please refer to the [Scheme Information Document](#) (SID) of scheme.

SCHEME SUITABILITY

- Suited for investors with a low-risk appetite who prioritize capital preservation and seek potentially stable returns over aggressive growth
- May suit investors seeking to diversify their portfolio with a balanced mix of assets, reducing overall risk while maintaining exposure to equities
- Suitable for achieving specific financial goals, by providing moderate growth with lower volatility
- Seeks to generate steady, low-volatility returns through arbitrage opportunities while keeping credit risk minimal.

WHO SHOULD INVEST

- Risk averse investors
- Seeking alternatives to traditional short-term investment options with a understanding that mutual fund returns are not assured and are subject to market risks.
- Investors who prefer 'equity taxation' - Those who are in higher tax slabs
- Investors who do not want to take directional calls on the market and prefer arbitrage based strategies.

WHO SHOULD NOT INVEST

- Those who want aggressive wealth creation
- Seeking to earn a fixed amount of income every month
- In an income tax bracket which may not benefit from the relatively 'tax-advantaged' status which arbitrage Funds enjoy compared to 'non equity oriented Funds

INVESTMENT STRATEGY

- Debt allocation tends to be a big differentiator between arbitrage funds. Some funds take Credit risk and/or duration risk

- Our Debt Strategy
Credit Risk: Low (Similar to Liquid Fund) Duration: Around 1 Year

- The fund maintains a minimum of 65% in equity arbitrage strategies, with flexibility to allocate up to 35% in debt and money market instruments based on market conditions

PLANS OFFERED AND AMFI TIER I BENCHMARK

The scheme offers two plans:

1. Direct Plan
2. Regular Plan

Both, Regular and Direct Plan will offer only one Option, viz., Growth Option

AMFI Tier I Benchmark: Nifty 50 Arbitrage (TRI)

The NAVs of the above plans will be different and separately declared; the portfolio of investments remaining the same. The Investors should indicate the plan/option for which the Subscription is made by indicating the choice in the appropriate box provided for this purpose in the application form.

SCHEME FACTS

TYPE OF SCHEME

An open-ended scheme investing in arbitrage opportunities

INCEPTION DATE

November 02, 2023

AMFI TIER I BENCHMARK

NIFTY 50 Arbitrage (TRI)

INVESTMENT OBJECTIVE

The investment objective of the scheme is to generate capital appreciation and income by predominantly investing in arbitrage opportunities in the cash and derivatives segment of the equity market, and by investing the balance in debt and money market instruments.

However, there is no assurance that the investment objective of the Scheme will be achieved and the Scheme does not assure or guarantee any returns.
