How do we value investments

- Valuation of the business across its own history.
- Peer valuation & differences.
- Our own estimates & range of reasonable valuation.

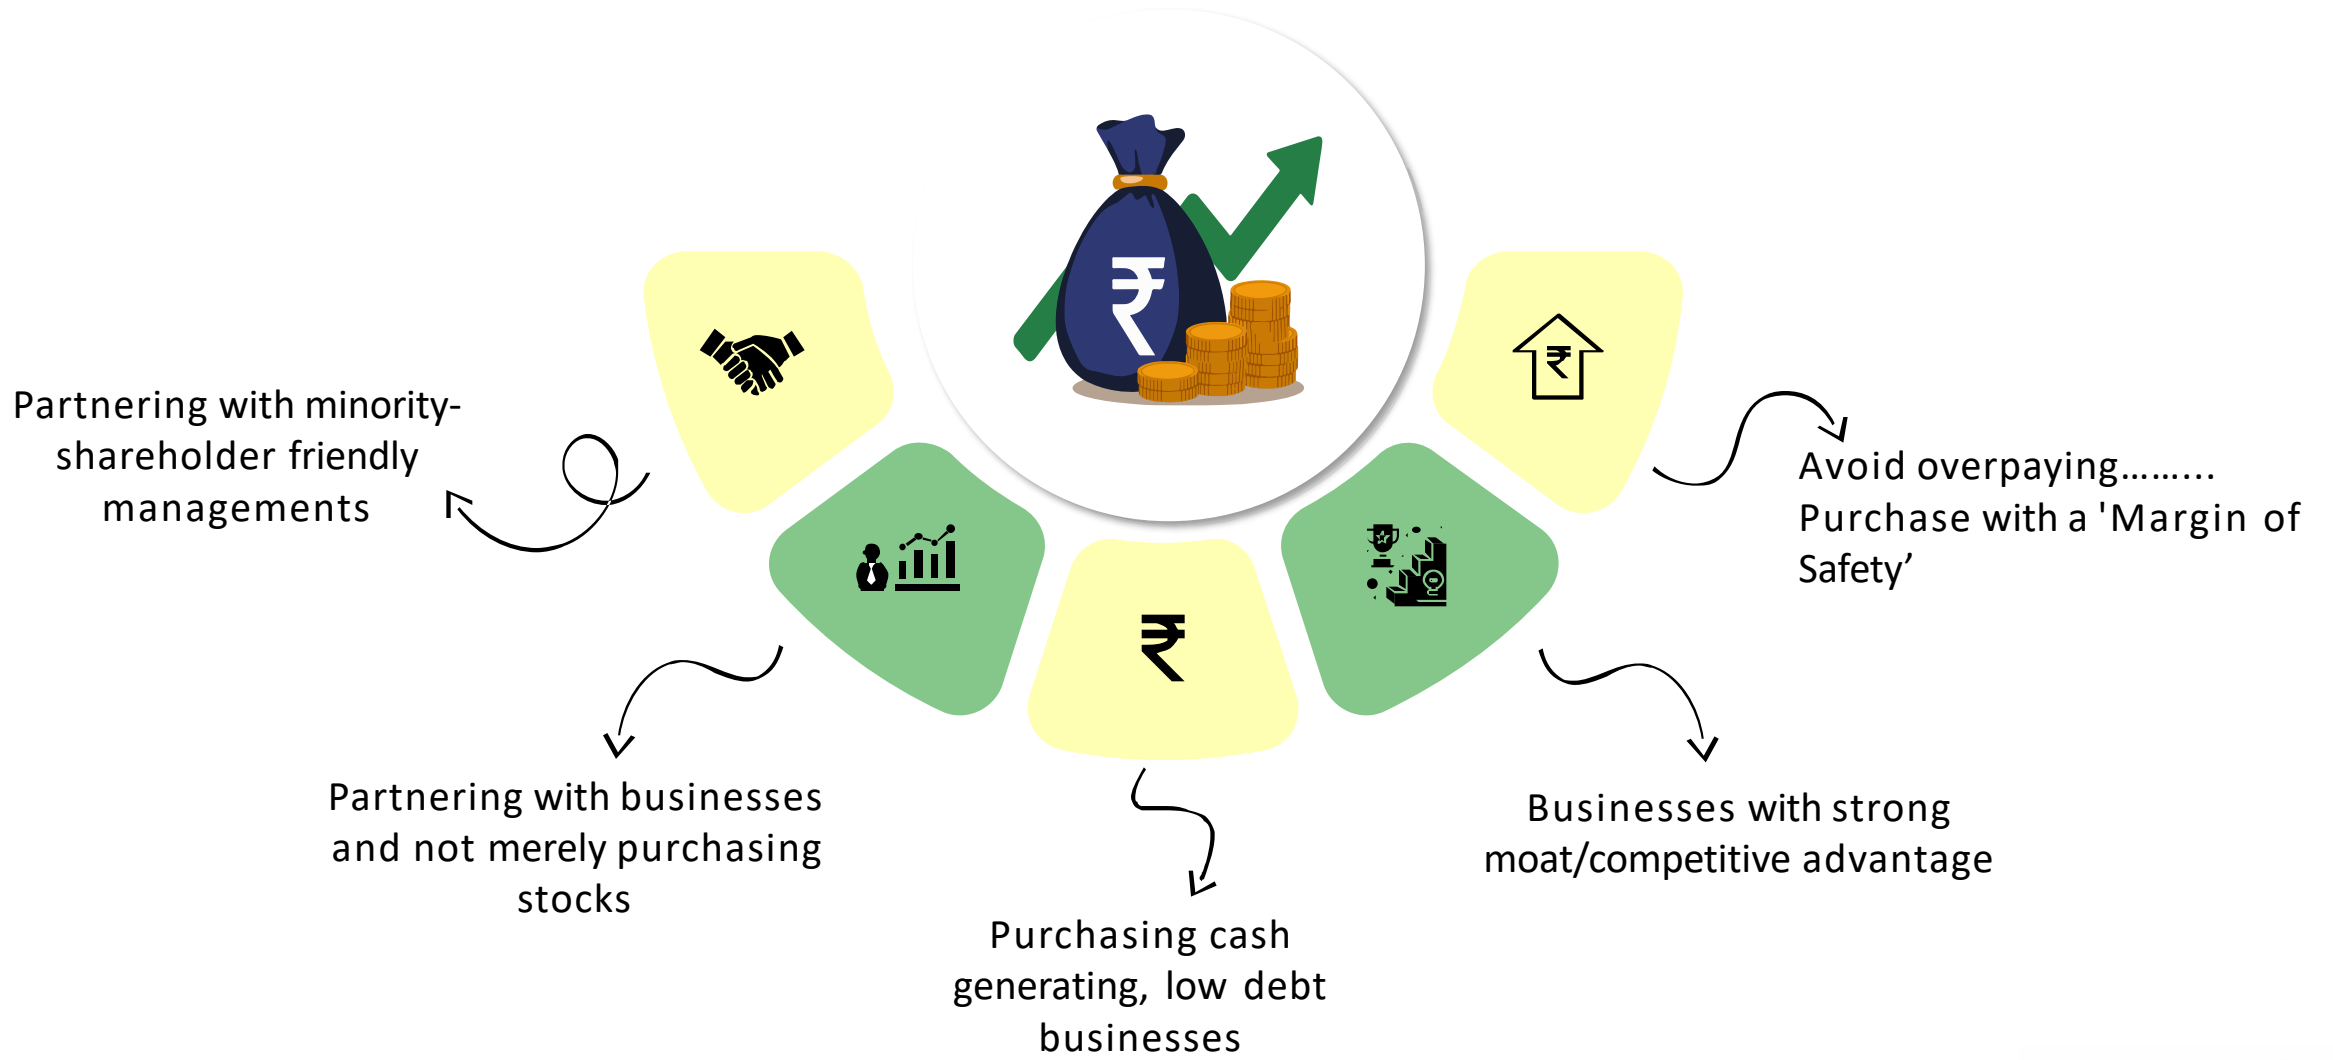

How do we study investments

- Sectoral study of investment universe.
- Compare performance of competitors.
- Study the history of businesses & sectors.
- Assess the management & business quality.

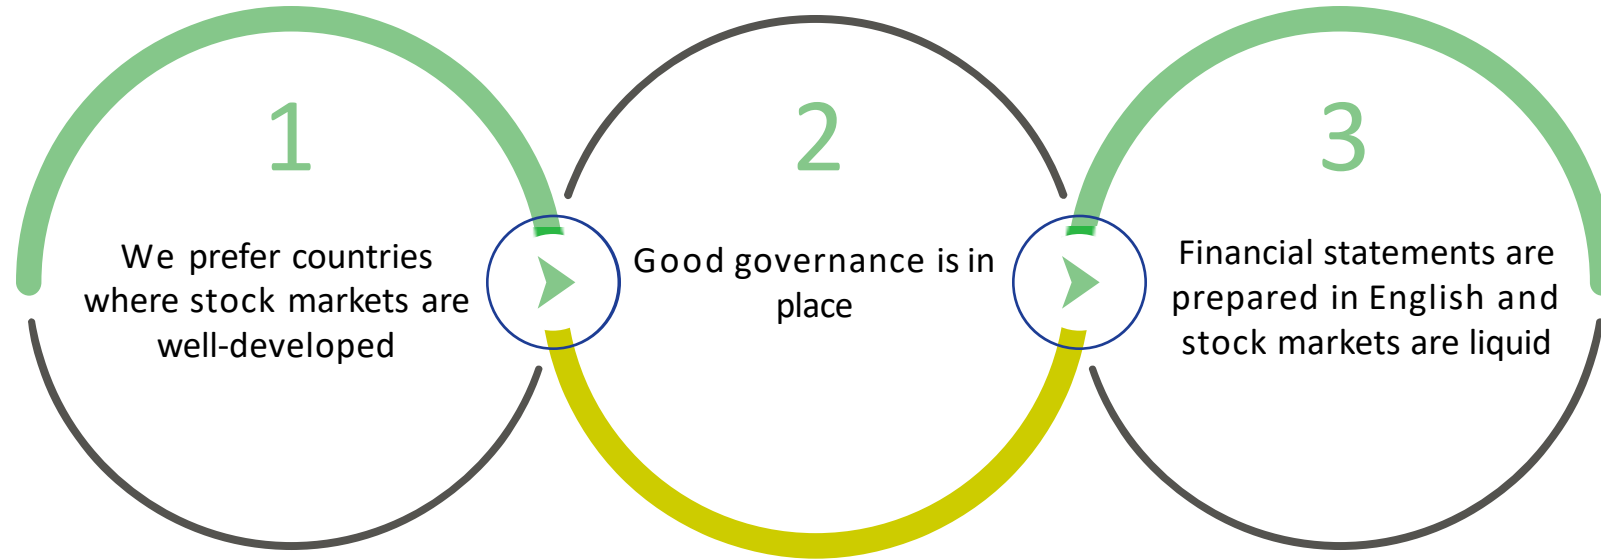

How do we build the portfolio

OUR INVESTMENT APPROACH

HOW DO WE SHORTLIST INTERNATIONAL STOCKS

Within these countries...

We seek companies which are large, have operations in multiple countries and are reasonably valued.

Currently, we are focusing on companies listed mainly in USA, Western Europe and Developed Asia as we have access to a large universe of companies which possess all these attributes.

Note: Constituents of the overseas portfolio, as well as their overall share in the total will fluctuate based on the Fund Management Team's view of domestic and foreign markets, regulatory stipulations, restriction on foreign currency remittances, etc. Investors are requested to consult their financial, tax and other advisors before taking any investment decision(s).

TAX EFFICIENT

65% of corpus invested in Indian equities. Hence it enjoys the same tax benefits as any other Indian equity mutual fund scheme, despite it having the freedom to invest in foreign stocks.

Note : Investors are requested to consult their financial, tax and other advisors before taking any investment decision(s)
